

Andatech Soberlive FRX

Wall mounted breathalyser with facial recognition for user verification during breath alcohol tests together with temperature screening. Sync data via Andalink. AS3547:2019 certified.

Accurate & reliable

Accuracy of $\pm 0.005\text{g}/210\text{L}$ for readings up to $0.100\text{g}/210\text{L}$.

Instant user verification

Facial recognition verification before, during, and after each breath alcohol test to prevent fraud.

Fast passive & specific tests

Response time of 5 seconds and recovery time of <30 seconds before the next test.

Centralised data in one place

Secure breath alcohol test data management through Andalink for multiple breathalysers.

Automatic alerts & reports

Email notification for regular reporting and alerts for test results over a set limit.

No calibration downtime

Replaceable sensor allows the breathalyser to function when one is sent for calibration.

SKU	ALS-SOBERLIVE-FRX
AS3547 certified	AS3547:2019
Sensor type	Replaceable fuel cell sensor
Accuracy	$\pm 0.005\text{g}/210\text{L}$ for readings up to $0.100\text{g}/210\text{L}$
Response time	5 seconds
Recovery time	1 second 20-30 seconds for facial recognition and temperature screening
Calibration frequency	Unlimited tests, every 12 months
Testing mode	Specific & passive testing
Compatible software	Andalink
Built-in memory	10,000 registered faces 20,000 test results
Display	LCD screen
Camera	1 megapixels
Infrared temperature sensor	Accuracy within $\pm 0.3^\circ\text{C}$ Less than 1 second response rate
Internet connection	Ethernet, Wifi, 4G (optional)
Power supply	AC: 100-240V 50-60Hz DC: 12V 3A
Weight	1,243g
Dimensions	H: 22cm, W: 20cm, D: 8.8cm

Manage breath alcohol data with

andalink

The Andatech Soberlive FRX should not be solely used to diagnose or exclude a diagnosis of COVID-19 or any other disease. Elevated body temperature should be confirmed with secondary evaluation methods such as a TGA approved, medical-grade thermometer.

Extendable up to 8 years*

Includes Andatech Soberlive FRX, power cable, RS232 cable, user manual, 2 straw adaptors, 5 sampling cups, 2 keys (unlock to connect to bracket), 2 screws, 2 wall plugs.
