

## DSO 8 PLUS DRUG TEST CUP

This DrugSense® DSO8 Plus tests for 8 common drug groups. It can also screen for alcohol, providing colour coded results for alcohol presence up to 0.30 %BAC. Easy to use, the DrugSense DSO8 comes with an all-in-one swab and test, making it a superb choice for quick and efficient saliva drug testing whether at home or in the workplace.

### PRODUCT BENEFITS

#### Quick results

Perform a quick mouth swab, put the collector in the container and wait for the results.

#### Easy to test

Simple step-by-step instructions on the kit

#### Precise & accurate

Test for 8 commonly used drugs and presence of alcohol

#### Compact

Sample collection and results in one compact kit

#### Non-invasive

Confidential results in the privacy of your own home or workplace.
