

Andatech Soberlive

Wall mounted breathalyser with RFID reader for alcohol breath testing of staff and visitors. Syncs test results to Andalink and your systems. AS3547:2019 certified.

Accurate & reliable

Accuracy of $\pm 0.005\text{g}/210\text{L}$ for readings up to $0.100\text{g}/210\text{L}$.

Built-in RFID reader

Link alcohol test results to staff IDs for fast, accurate tracking and seamless system integration.

Fast passive & specific tests

Response time of 5 seconds and recovery time of <30 seconds before the next test.

Centralised data in one place

Secure breath alcohol test data management through Andalink for multiple breathalysers.

Automatic alerts & reports

Email notification for regular reporting and alerts for test results over a set limit.

No calibration downtime

Replaceable sensor allows the breathalyser to function when one is sent for calibration.

SKU	ALS-SOBERLIVE
AS3547 certified	AS3547:2019
Sensor type	Replaceable fuel cell sensor
Accuracy	$\pm 0.005\text{g}/210\text{L}$ for readings up to $0.100\text{g}/210\text{L}$
Response time	5 seconds
Recovery time	1 second
Calibration frequency	Unlimited tests, every 12 months
Testing mode	Specific & passive testing
Compatible software	Andalink
Built-in memory	20,000 test results
Display	LCD screen
Internet connection	Ethernet, Wifi
Power supply	AC: 100-240V 50-60Hz DC: 12V 3A
Weight	1,243g
Dimensions	H: 22cm, W: 20cm, D: 8.8cm

Includes Andatech Soberlive, power cable, RS232 cable, user manual, 2 straw adaptors, 5 sampling cups, 2 keys (unlock to connect to bracket), 2 screws, 2 wall plugs.
