

The SpilMax® range of absorbents have undergone extensive testing to ensure their absorbency and performance, even when under extreme industrial use.

SpilMax® Universal Absorbent Pads are the ideal solution for any workplace or environment that requires fast and efficient clean-ups of liquids with high viscosity. Made from high-quality polypropylene, these pads are not only environmentally friendly but also extremely durable, making them suitable for even the toughest spills.

With their great drape ability, these pads can easily conform to any surface, ensuring that every drop of liquid is absorbed quickly. They can withstand rigorous pressures from wiping,

making them ideal for use in workshops, industrial sites, depots, vehicle repairs, and even outdoor spills.

SpilMax® Universal Absorbent Pads highly absorbent and can effectively absorb a wide range of liquids including petroleum-based liquids, paint, bodily fluids, oil, fuel, mild acids, and water-based chemicals. They are ideal for use in outdoor spills and moist areas.

TESTING: ASTM Test Method F726-06
“Sorbent Performance of Absorbents” to test maximum oil capacity.

| CODE | GSM | SIZE | PAD QTY | DIMENSIONS | WEIGHT |
|--------|--------|-----------------|---------|--------------------------|--------|
| CH1321 | 400gsm | 480mmL x 430mmW | 100/Box | 0.50mL x 0.45mW x 0.44mH | 10 kg |
